### EDUCATION

**Vellore Institute of Technology**, Vellore, Tamil Nadu  
B.Tech in Computer Science Engineering (IOT)

September 2021 – May 2025  
7.59

### WORK EXPERIENCE

#### EY

Gurugram, Haryana

##### Data Analyst Intern

June 2024 – September 2024

- Worked as a Data Analyst and Contributed to the development of the International Solar Alliance's (ISA) "Ease of Doing Solar 2024" report.
- Analyzed KPIs for 120 United Nations countries to assess and enhance the adoption of solar energy solutions and solar energy implementation
- Provided critical insights and recommendations on performance metrics such as energy efficiency and capacity utilization, recommending improvements in data-driven decision-making and technology adoption to boost global solar energy initiatives

#### NTPC LTD.

Noida, Uttar Pradesh

##### Intern

October 2023 – November 2023

- Created a responsive front-end user interface for the company's latest project using React and JavaScript, increasing accessibility across various devices and screen sizes by 20%
- Employed modern design principles such as responsive design and flexible grid layouts, ensuring seamless accessibility across various devices and screen sizes
- Integrated interactive elements and intuitive navigation to enhance user engagement and experience.

#### Yokogawa India Limited

Bengaluru, Karnataka

##### Summer Intern

September, 2023 - October, 2023

- Developed an offline chatbot with intuitive navigation features for the company's website, reducing user search time by 42%
- Designed a user-friendly interface using HTML, CSS, and JavaScript, leading to smoother interactions and noticeable improvements in the overall user experience and user satisfaction by 30%
- Integrated the chatbot into the company's website, which enhanced user experience and decreased support queries by 25%

### LEADERSHIP EXPERIENCE

#### Bhavishya NGO

Noida, Uttar Pradesh

##### Volunteer

June 2024 – July 2024

Volunteered at an NGO, providing educational support to underprivileged students across various grade levels, while fostering a positive and inclusive learning environment.

### PROJECTS

#### Real Estate Price Prediction

June 2024 – July 2024

- Developed a real estate price prediction website with three primary parts: a Python Flask server to manage HTTP requests and deliver predictions; a machine learning model utilizing scikit-learn and linear regression on the Bengaluru home prices dataset; and an HTML, CSS, and JavaScript web interface allowing users to input property details and retrieve predicted prices. Through this project, machine learning deployment and full-stack development were demonstrated.

#### News Research Tool

July 2024 – September 2024

- Developed a news research tool using LangChain, OpenAI API, and Streamlit to assist equity research analysts. The tool uses LLMs to analyze and summarize financial news, reducing manual analysis time by up to 70% and improving decision-making accuracy by 30%. It combines advanced NLP techniques with a user-friendly interface, boosting research efficiency and user engagement.

### PUBLICATIONS

#### Computer Specialized Cross Disciplinary Views on Learning Communication and Life Skills (2023)

- Chapter 7 et al Prakhav Varshney, Chirantan Jain, Aditya Vispute & Dr. M. Thenmozhi

**Smart Refrigerator Model for Food Safety and Health promotion using YOLOv10**, METASOFT Conference 2024

### SKILLS

- **Languages:** Python, Java, C, HTML, CSS, JavaScript, SQL, R
- **Tools:** Power BI, MS Tools, Google Workspace, StarUML, Overleaf, Tableau, Jira, MATLAB, Excel
- **Miscellaneous:** Data Structure and Algorithms, OOPS, Computer Networks, Agile/Scrum
